### FROM BILBAO-SAN SEBASTIAN

Leave the AP-8 via exit 1 (Behobia) to the N-121-A. Follow until the km 42 marker (Attention! This marker is inside the tunnel) where, just after exiting the tunnel, there is a deviation to the right marked N-121-B Oronoz-Mugairi, Elizondo and France (Francia). Take the N-121-B. Continue along the N-121-B until the km 59 marker. The driveway of Jaimeneko borda is about 300 metres further along, on the right shoulder of the road.

Warnings: before the km 59 marker you will see the entrance to the village of Amaur, it's not actually necessary to go through the village but rather continue on until seeing the kilometre marker.

Careful with navigation devices: sometimes they may display shorter routes in distance but they are more complicated due to the type of roads. In the case where you wish to use one, instead of putting Amaur as a destination, use Oronoz-Mugairi (which is the km 41 marker of the N-121A, the intersection of all the possible routes and main point of connection to the N-121-B which is the road which leads to the final destination).
